Company Overview

Founded in 2020, Pitlox Technologies officially became a registered company in 2023. We bring a wealth of expertise in creating digital media solutions that encompass professional websites, applications, gaming platforms, as well as interior and exterior designs, and software development. Currently, our vibrant team consists of 17 skilled professionals, including web developers, app developers, graphic designers, 3D modelers, animators, game developers, legal experts, digital marketers, content writers, and more. Together, we strive to innovate and explore uncharted territories, delivering exceptional creations to the world.

Commitment to Excellence
At the core of our operations is a commitment to excellence, which is reflected in our ability to develop cutting-edge applications that satisfy global needs. With an impressive track record, we have achieved a 4.8 rating across various global app stores, showcasing our precision and effectiveness. Additionally, our legal department serves as a foundation of integrity, ensuring ethical and lawful practices in every aspect of our work. From facilitating NDAs to offering comprehensive after-sales support, our legal team prioritizes client protection and interests, creating a secure environment for all stakeholders.

Led by Mr. Pranav Vats, a postgraduate from Lovely Professional University, Pitlox Technologies embodies his vision of an organization dedicated to serving people while spearheading futuristic innovations. Our clients trust us with their projects, valuing our unwavering loyalty and commitment to excellence.

Company Overview

We take great pride in being a complete one-stop solution provider, guiding our clients from the initial idea to global deployment. Our unwavering dedication to delivering a 360-degree solution has earned us the trust and admiration of our clientele.

Recent Project Highlight: Ludo App Development

Let me share a recent project where we developed a simple Ludo app for one of our valued clients. Initially engaged for the core app creation, our commitment to exceeding expectations allowed us to provide a comprehensive solution that included:

- A custom website to enhance client engagement and connectivity.
- Detailed legal policies and agreements to ensure compliance with app store regulations and facilitate payment processing.
- Establishment of a developer account for smooth global app distribution.
- Design of a unique logo to serve as the app's signature icon.
- Creation of engaging content for app store descriptions and promotional videos to maximize visibility and appeal.
- Access to a vast social media audience of over 1.5 million individuals for effective marketing outreach.
- Integration of secure payment gateways directly linked to their bank accounts for streamlined earnings management.
- One year of complimentary application enhancements and updates to ensure ongoing performance and user satisfaction.
- The option for one free update to accommodate any desired changes post-release.

This commitment to excellence is our standard, reflecting our steadfast dedication to prioritizing our clients' needs above all else.

Should you have any questions or need further clarification regarding your project requirements, please feel free to reach out to us using the official contact information provided below. For more insights into our company and values, we invite you to visit www.pitlox.com.

We eagerly look forward to the opportunity to collaborate with you and bring your vision to life.

Project Pipeline

Starting from getting details till delivering the best value!

Getting Required Information And Vision From Clients

We will gather to determine the specific requirements and carefully record the necessary information. Following this, we will collaboratively add further insights to enrich and refine the content, pending your approval, ultimately boosting its effectiveness and impact.

Receive final approval

We will begin by presenting the actual content, covering user interfaces, functionalities, and features with great attention to detail.

Deliver The Credentials And Data

We will provide you with all the credentials and project-related information we previously discussed.

Rolling Out And Analytics

We will refrain from launching any projects into the market from our side. However, if there was a prior agreement, we are ready to carry out promotional activities on your behalf.

That's Standard

What You Can Anticipate from Us!

- One Time Project Delivery
- Dedicated RM For Your Tech Project
- Complete Project, Data & Idea Privacy
- Modern UI & UX With Figma Prototype Approval Before Development Commencements
- Upto 3 Improvements & Revisions

- One Account Project Set Up
- Part & Equal Payment Timelines
- Proper Milestone & Timelines
- Complete Credentials Handover & Data Loss Recovery
- One Year Free Maintenance In Existing Technology Developed
